Code Dx Enterprise Wins the ASTORS Homeland Security Platinum Award for Best Cyber Security Application Management Solution

NORTHPORT, N.Y. – November 20, 2017 – **Code Dx, Inc.**, provider of an award-winning application security solution that automates and accelerates the discovery, prioritization, and management of software vulnerabilities, today announced that it won the ASTORS Homeland Security Platinum Award for Best Cyber Security Application Management Solution. Sponsored by *American Security Today*, the award was presented at the ISC East conference in New York City on November 15.

Through this awards program, *American Security Today* honors both new and established vendors that provide innovative solutions to address the evolving homeland security threats.

 "Being recognized with the Platinum Award confirms that our Code Dx Enterprise solution is filling a gaping hole in the cybersecurity industry," said **Anita D'Amico, Ph.D.,** CEO of Code Dx. "As threats to our nation's IT infrastructure continue to grow, our team is focused on developing innovative application vulnerability management solutions that help organizations overcome the obstacles they face when using multiple application security testing tools and methodologies. With Code Dx Enterprise, organizations can achieve greater vulnerability coverage, and can better assess their overall software security risk."

About Code Dx
Code Dx, Inc. is a provider of an award-winning application security solution that automates and accelerates the discovery, prioritization, and management of software vulnerabilities. The Code Dx Enterprise solution integrates the results of multiple static, dynamic, and interactive Application Security Testing tools, third-party component analyzers, threat modeling tools, and manual reviews into a consolidated set of results for quick and easy triage, prioritization, and remediation. The core technology was partially funded by Department of Homeland Security Science & Technology (DHS S&T) to help secure the nation's software supply chain.
